COVID-19 Vaccine

Tarrant County Public Health (TCPH)

As directed by the Texas Department of State Health Services, [Tarrant County Public Health](#); along with other Texas-based health entities, is providing vaccinations in phases. Vaccine appointments will first go to those most at risk of catching, spreading or dying from COVID-19. The initial groups are called Phase 1A and 1B (see below). If you are eligible, please sign up and you will be assigned an appointment as vaccine becomes available.

If you are not eligible at this time, you can still sign up and we will assign you a group as the State announces other phases. If you show up without an appointment, you will be turned away.

Because vaccine supply is currently limited and we're trying to provide a COVID-19 safe environment for all, there may be some lines outside to aid social distancing and further assure client safety. Please dress appropriately. If standing in line for an extended period of time is medically difficult, please speak to medical screeners on-site to make other arrangements.

Please visit [DSHW's website](#) for a list of available hub providers in your area.

Questions about the vaccine?

See the following FAQs from the CDC and the Texas Department of Health.
